

Watch out for bears

There was an eyewitness report of a large wild animal that looked like a bear in Yamano-cho, Yamano.

If you encounter a bear, do not provoke it, stay calm and quietly walk away.

Footprints of black bears(front legs)

○Bears are active in the morning and evening.

Avoid going outside at night and early morning as much as possible.

○When the bears notice sounds, it will often flee on their own.

Use bells or radios to make your presence known.

○Be especially cautious when entering the mountains!

○Harvest fruits early to avoid attracting bears.

○Keep away from bears!

If you feel endangered, call the police (110)
